

SULAPAC

Sulapac[®] Flow 1.7

Sustainable wood-based
3D printing material with
ideal flow behavior.

**Sulapac takes your
3D printing to the
next level:**

Reduced carbon footprint,
no microplastic pollution,
more renewable raw
materials.

Revolutionize your printing experience with Sulapac[®]

– trusted by leading luxury brands

SUSTAINABILITY BENEFITS

- 🌱 Bio-based
- 🌱 Low carbon footprint
- 🌱 Recyclable by design
- 🌱 Safe for people and planet*

PRODUCT CHARACTERISTICS

- 🌱 Splinter-free
- 🌱 Unique look & feel
- 🌱 High dimensional stability and elasticity

PRINTING PERFORMANCE

- 🌱 Low tendency to warp or shrink
- 🌱 No nozzle clogging
- 🌱 Easy post-processing

*No microplastic pollution, no PFAS or other toxic chemicals. Find more info and validation of the features at sulapac.com/scientific-background
